VOL. XI GLENDALE (LOS ANGELES POSTOFFICE), LOS ANGELES COUNTY, CAL., TUESDAY, OCTOBER 26, 1915 56

MUNICIPAL DOINGS

LOT CLEANING COMPLETED—WORK ON WASH—AUTO BUS ORDINANCE

POSTPONED MEETING

Pursuant to motion or adjournment at the last regular meeting, the Board met at 7:30 p. m. at the City Hall Friday evening. Present at roll call—Grist, Thompson, Tower. Absent—Lane and Williams. In the absence of the Chairman, Trustee Thompson was appointed Chairman pro tem.

Protection Work on Wash

The City Manager presented communication from the City Engineer in regard to the expense of wash protection in Verdugo and Sycamore Canyon. It was laid aside temporary for action later.

Lot Cleaning

The City Manager presented a communication in regard to lot cleaning, which, on motion, was ordered to be received and placed on file.

The City Manager made a statement in reference to the work that had been accomplished to the effect that the posting of notices and the estimated cost of the work had all been attended to in accordance with the requirements of the law.

On motion of Trustee Tower, the hearing of protests in regard to the cost of the abatement of certain nuisances (lot cleaning) was called for. There being no protestants present and no protests on file, a motion of Trustee Tower was adopted, accepting and approving the report of the City Manager.

Resolutions in reference to lot cleaning were, on motion, order to be read, and upon being read were adopted, "A Resolution of the Board of Trustees of the City of Glendale confirming the report of the City Manager and Ex-Officio Street Superintendent of the cost of abating certain nuisances in the City of Glendale and directing a copy of said report be turned over to the Assessor and Tax Collector of the City of Glendale, and further directing said officers to add the amounts of the respective assessments to the next regular bills for taxes levied against the said respective lots and parcels of land," by the following vote: Ayes—Grist, Thompson, Tower; Noes—None; Absent—Lane, Williams.

Protection Work on Wash

The communication of the City Engineer above referred to was ordered to be taken up and read, and upon motion, after being read, was ordered to be approved and placed on file.

Resolution Number 875

A resolution was presented by the City Manager, and on motion of Trustee Grist, ordered to be read, and upon being read was adopted as Resolution No. 875, "A Resolution of the Board of Trustees of the City of Glendale declaring that the public interest and necessity demand the acquisition and construction of a certain municipal improvement, the cost of which will be too great to be paid out of the ordinary annual income and revenue of said city," by the following vote: Ayes—Grist, Thompson, Tower Williams (Trustee Williams entering at 7:45 p. m.; Noes—None; Absent—Lane.

Demands and Warrants

The following demands were read and referred to the Finance Committee:

E. D. Yard	$ 84.03
Jacob Fink	103.00
Glendale Hardwood Flooring Company	29.55
Laura L. Sampson	3.50

(Trustee Williams was excused at 7:55 p. m.)

REGULAR MEETING

The regular meeting of the Board of Trustees of the City of Glendale was held in the city hall Monday evening, October 25, 1915. Present, O. A. Lane, president of the board, and Trustees Chas. Grist, J. S. Thompson, A. W. Tower and Geo. Williams. Also present: T. W. Watson, City Manager; J. C. Sherer, City Clerk; W. E. Evans, City Attorney; H. B. Lynch, manager of public service department; Edw. M. Lynch, City Engineer; A. H. Lankford, fire marshal, and Geo. H. Herald, City marshal.

The minutes of the last regular meeting were read and after changes of a clerical nature made by the Clerk, were approved.

The minutes of the special meeting of October 21st were read and approved.

Bids for team and harness, in accordance with the advertisement for the same, were ordered opened and publicly declared, and the following bids were read and referred to the City Manager.

LIKES GLENDALE BEST

REV. J. O. CORLISS, ADVENTIST EVANGELIST, DESCRIBES TRIP THROUGH SOUTH

After having made two trips round the world and various tours throughout the United States, the Rev. J. O. Corliss, 316 Everett St., Adventist evangelist, comes back to Glendale to realize that there is no climate so wonderful and no place more beautiful. Mr. Corliss has been a resident in Glendale for two years. Before that time he was a traveling evangelist and visited many of the strategic points in foreign lands where the Adventist church has its garrisons and outposts. Whether in the lovely isles of the Pacific, amid the cherry blossoms of Japan, or the ornate temples of India he has found no place where conditions were better or the climate so genial as in Glendale.

"I left Los Angeles on May 17 on my last evangelistic trip," said Mr. Corliss, "and went to a place near Pittsburg, to a camp meeting that was being held there. That was near Easton and in fact was nearer Homestead than Pittsburg. We had a very well-attended camp meeting there and the people flocked to the services in a manner most gratifying to the church. I had before me a series of twelve such meetings to be held in different parts of the country and I was gratified by the feeling evinced at the very outset. I feel sure that the war in Europe has made people all over the United States begin to think. I am certain that the people in the vicinity of Pittsburg were thinking as I spoke to them. I had another meeting near Allentown which was quite as successful.

"In Pittsburg I found matters in a satisfactory condition as far as material welfare was concerned. The war orders have brought a great deal of business to that quarter and there is a vast deal of prosperity. I went out to Homestead and found that the United Steel company permits no visitors to its plant. They are not anxious to let anyone know what orders are being worked on and they are also anxious to guard against the possibility of attempts to destroy the plant.

"From Pittsburg I went to Burlington, Iowa, where there was a large Adventist gathering. It lasted ten days and was a great success. Thence I went to Washington, D. C., where the headquarters of the Adventist church are. I remained there two weeks attending to various routine matters under the direction of the central office. Washington is slowly evolving from the chaos of erratic building that almost obliterated the original plans on which the city was laid down. It is bit by bit evolving into one of the most beautiful cities in the world.

"Thence I went to Cleveland, Tenn., a city of 6,000 people, busy and progressive. The factories there turn out vast quantities of clothing and stockings. It is one of the prosperous cities of prosperous Eastern Tennessee. All round is a fine farming country. Then I went to Spartanburg, S. C., a large cotton factory center. There I was much interested in the movement made by the "Saxon" factory to educate the children of its employes. They work one week and go to school the next. They have two shifts of children and in this way neither the school nor the factory is ever idle.

"High Point, N. C., was my next stop. There I found more than 60 furniture factories all in full work. They turn out furniture and wagons in great quantities. Near that point is the famous Bull Durham tobacco factory and the whole district depends on its cotton and tobacco.

"Union City, Georgia, was my next engagement. This city is 17 miles from Atlanta, where we had another meeting. Petersburg, Florida, was our next stop. It is a city of 10,000 people, a fine watering place, with many visitors. Numerous people from the North settle there.

"From that point I went to Tampa, Florida, and took a boat to New Orleans. We had a two days' trip on a rough sea, but found it interesting. After two days in New Orleans I took the train for Los Angeles and came on to Glendale, delighted to find the dear old place as usual, pleasant and hospitable. All the way through my journeyings it was hot and moist. One day in Jackson, Tenn., I was preaching with the thermometer 110 degrees. I came to the conclusion after getting home not only that there is no place like home, but also that there is no place like Glendale."

WEATHER FORECAST—Fair tonight and Wednesday; west winds.

VILLISTAS GATHER FOR BIG BATTLE

MEXICAN REVOLUTIONISTS THREATEN AGGUA PRIETA . INHABITANTS FLEE TO DOUGLAS, ARIZONA

(Special Service to Glendale Evening News)

COLUMBUS, N. M., Oct. 26.—Twelve thousand Villistas are threatening Agua Priet, Sonora. A big battle is likely to be fought there before many hours are over. The town is in a panic and the inhabitants are fleeing across the border to Douglas, Ariz. It is feared that much damage will be done in Douglas as the fighting will be close to the American line.

KAISER CONFERS WITH GERARD

GERMAN EMPEROR AND AMERICAN AMBASSADOR HAVE SATISFACTORY INTERVIEW

(Special Service to Glendale Evening News)

BERLIN, Oct. 26.—United States Ambassador Gerard and Kaiser Wilhelm today discussed German-American affairs for one hour. Gerard indicated that the conference was satisfactory. He mailed today a long report to President Wilson.

UNITED STATES TO HANDLE FAY CASE

FEDERAL AUTHORITIES ASSUME CONTROL OF PROSECUTION OF ACCUSED GERMANS

(Special Service to Glendale Evening News)

NEW YORK, Oct. 26.— The United States government today assumed control of the prosecution of Lieutenant Robert Fay and Walter Scholtz, his brother-in-law, charged with attempting to destroy munitions ships at sea. Chief Flynn of the secret service took the prisoners into custody and removed them from Weehawken to New York city, after having formally placed them under arrest and charged them with attempting to destroy a ship in American waters.

GOMPERS EXPOSES GERMAN PLOT

LABOR LEADER TELLS PRESIDENT WILSON OF TEUTON PLANS TO CAUSE WALKOUTS

(Special Service to Glendale Evening News)

WASHINGTON, D. C., Oct. 26.—President Gompers of the American Federation of Labor visited President Wilson today and gave many details of a new alleged German plot to cause walkouts in munitions plants.

ALLIED FLEETS DAMAGE BULGARIAN FORT

BULGARIANS ADMIT SERIOUS DESTRUCTION AT DEDEAGATCH—MANY SOLDIERS KILLED

(Special Service to Glendale Evening News)

SOFIA, Bulgaria, Oct. 26.—It was admitted by the war office here today that the allied fleets' bombardment of the port of Dedeagatch has almost entirely destroyed the town. Many Bulgarian soldiers were killed and twenty-five women and children were also among the dead.

BERLIN ANNOUNCES FURTHER PROGRESS

VON HINDENBURG AGAIN ACTIVE ON RUSSIAN FRONT—TAKES 1500 PRISONERS

(Special Service to Glendale Evening News)

BERLIN, Oct. 26.—Further progress in Servia is announced by the war office today. On the Russian front, Field-Marshal Von Hindenburg has resumed the offensive and has captured 1500 prisoners.

LIGHT VOTE THROUGHOUT STATE

GOOD WEATHER REPORTED FROM ALL OVER BUT INTEREST IN ELECTION NOT OVERWHELMING

(Special Service to Glendale Evening News)

SACRAMEMNTO, Oct. 26.—Despite good weather reported from all over the State a light vote was reported everywhere. It is true that in some places 40 per cent of the registered vote was polled; but in most instances the balloting was very much lighter.

ORDERS FUNSTON TO PROTECT AMERICANS

SECRETARY GARRISON AUTHORIZES BORDER COMMANDER TO USE ALL THE TROOPS HE NEEDS

(Special Service to Glendale Evening News)

WASHINGTON, D. C., Oct. 26.—Secretary Garrison today authorized General Funston, commander of the border forces, to use any number of the 20,000 available troops to protect American lives and property at Douglas, Arizona, where serious fighting is expected today between Villistas and Carranzistas.

TRAINING IN MINES

FIFTY THOUSAND TRAINED RESCUE WORKERS AVAILABLE FOR WAR HOSPITAL SERVICE

The United States bureau of mines is the greatest institution in the country for preparing men for war hospital service, declared Van H. Manning, the new director of the bureau today.

This is one detail of the new "preparedness" program.

"In 48 hours," he said, "50,000 trained 'first-aid-to-injured' experts could be mobilized in the great mining states of the country. I mean the trained mine rescue crews. Think what that would mean when this war has shown that economy in men is of vital importance and that the sooner a wounded man is given treatment the greater the chances are for his return to the firing line.

"Since 1908 the bureau of mines has done extensive demonstration and training work among men in the big mining companies throughout the country. Every mine of importance now has its corps of trained mine rescue workers.

"These men are thoroughly expert in all sorts of bandaging, treatment of minor fractures, sterilization of wounds and probing for foreign objects in the body. In addition they are trained to use the oxygen helmet, which will permit them to enter places where the air is too poisonous to be breathed.

Think how important this will be if the present 'poison gas' method of warfare is developed for a greater use in the future.

"In all mining states there is an annual mobilization of these potential hospital workers. Competitive drills are performed by the crews. This keeps the men in perfect training, accustoms them to working together and insures the certainty of quick mobilization in time of war.

"These men form the finest field hospital corps in the world. They can move over all kinds of ground and to overcome extraordinary difficulties due to their rescue work experience.

"Another important feature of a hospital service, and one for which we are directly responsible, is base railroad cars, containing the necessary supplies and bunks for the 'first aid' corps. We have eight such cars, a good nucleus for a complete service in wartime, and with scarcely any change in apparatus they would be ready to carry the crews as near a battle front as need be.

"Is it not an interesting paradox that we who have devoted our energies to saving men from the dangers of industrial pursuit should have at the same time trained a force capable of not only saving men from the dangers of warfare but able to send them back to those same dangers again to continue their fight?"

GIRL GIVEN HIGH JUDICIAL POSITION

Miss Orfa Jean Shontz, a graduate of the University of Southern California Law School last year, is the first woman in the United States to be appointed to a judicial position with Superior court jurisdiction. Miss Shontz was made referee of the Juvenile Court in Los Angeles County, a new position created by the last state legislature, and one which carried with it all the powers and duties of a Superior Court Judge except that of making final decisions. The appointment was made by Juvenile Judge Sidney N. Reeve on Tuesday last—the same day on which the state of New Jersey decided that women are not competent to vote. Miss Shontz's salary is $200 a month. She will hear all cases coming before the Juvenile Court and involving young girls.

REMEMBER YOUR STATE DAY

Names for various States that are to be listed next week are beginning to come in. Remember the day on which your particular State will be listed and make every effort to get out a large and thoroughly representative list of names. The loyal citizens who once resided in Kansas and who are attached to the flourishing Sunflower State by many ties should see to it that their friends send in their names or send them in themselves.

Monday, Nov. 1, is Kansas Day; Tuesday, Nov. 2, Nebraska Day; Wednesday, Nov. 3, Michigan Day; Thursday, Nov. 4, Kentucky Day; Friday, Nov. 5, Minnesota Day, and Saturday, Nov. 6, Ohio Day.

Man's importance may be measured by the amount of good he does in this world. Fine clothes and bank accounts are imperfect measures.

WAR ON DISEASE

U. S. PUBLIC HEALTH SERVICE SAYS CLEANLINESS DESTROYS BACTERIA

Great things have small beginnings. A spectacle maker, Jan Leippersheim by name, living in Holland, invented a crude magnifying glass in 1608. Anton von Leuwenhoek, born in Delft, this day 1632, improved this clumsy toy and evolved a compound microscope which has become the most valuable sanitary tool yet advised by man. That first microscope was as far removed from the high-powered instrument of today as is the modern American from the original caveman. Yet by this faulty means, Leuwenhoek, naturalist, physician and botanist, discovered certain minute bodies which he called "little animals." He made drawings of these and today we know them for those useful friends and malignant enemies of man—bacteria.

We spend our days surrounded by another world, a living world of countless billions, invisible to the naked eye, silent, tireless, destroying the living, consuming the dead, useful in the sciences and arts, yet often followed by a train of sickness, suffering and death. A curious paradox this, yet bacteria are at once the greatest friends and the fiercest foes of every living thing. Not animals, as Leuwenhoek thought, but vegetables, bacteria consist of two classes, those which prey on living things and those which reduce to their original minerals, fluids and gases, every dead thing which they may attack. They are of various shapes, round like marbles or straight like little sticks. They grow in clusters, chains and in pairs. They are ubiquitous. The dusty air, the earth and its waters, the interior of animals and plants all contain them. They cause the fermentation of foods, they make cheese, they produce disease and some of them when killed and injected into an animal protect it against the very disease which they would have produced if living. Many of them live as harmless creatures in the body of an animal for years, only to kill their host when the opportunity presents. Their study has given birth to a science, bacteriology, one of the foundation stones of public health.

Their mere presence does not necessarily produce disease. Recalling the parable of the sower, some bacteria fall by the wayside, some fall upon stony places, and some fall in good ground and bring forth the fruit of suffering, perhaps of death. A normal, temperate life, free alike from the gluttony of idleness or overwork, the sound mind in the sound body, a cheerful, normal environment, these form the stony places in which bacteria take no root. The depraved appetites of mind and body, the dark and sordid atmosphere of penury, the nerve racking and strength und rmining trades, these prepare the good ground.

The great weapon against bacteria is cleanliness. The mastery over premature death lies in a great measure in our own hands. Clean persons, clean cities, clean workshops and clean lives are the makers of public health. The United States Public Health Service and other sanitary bodies of this country are gradually bringing these facts home to the general public. In this way cleanliness is becoming more general, and the span of life in America is gradually being lengthened. All of which is largely due to the microscope.

CHARGED WITH ASSAULT

Gilbert Perrez, a Mexican, who, it will be remembered, was charged some months ago with illegally cultivating Mexican hemp in his field, is under arrest on another charge of alleged "disturbance of the peace." A hurried call came Monday afternoon for the police of Glendale to come out to the ranch of George Mesnager, at the intersection of Opechee and Wabasso Ways. Chief Herald and Patrolman Laurence at once drove out in an auto and found that Perrez had been terrifying Mrs. Treste Sareno, a small rancher in that neighborhood. So menacing had Perrez become that Mrs. Sarreno was in a highly nervous and hysterical condition. Perrez had taken flight, but was caught by the officers on La Canada boulevard. He was brought before Judge Whomes and charged with "disturbance of the peace." He was committed and his bail fixed at $10. One of Perrez' friends bailed him out. The trial is fixed for tomorrow.

But the Lord could not literally answer all the prayers that Europe is sending up.

INFECTION DANGER IN TRAVEL

In the report of the Bureau of the State Hygienic Laboratory for July the warning is given to the public that there is danger in traveling about by automobile on account of the facilities that means of conveyance offers to travelers to go to out-of-the-way places, where sanitary conditions are poor. There is no question as to the increase in automobile travel now that better roads are being provided and the prices of machines are being lowered. It is becoming more popular every year to use the automobile for business trips and also for vacations.

This is an excellent custom. It keeps people in the open air tends to make them healthful. It can be a source of great pleasure and profit to those who are able to enjoy it. It is very common, nowadays to see autoists camping by the wayside, preparing their meals and having a good time generally.

All this should tend to the betterment of the health of the country. There is one danger however that is pointed out by the Hygienic Laboratory. The automobile takes people into many communities in some of which sanitation is sadly neglected. This is so serious in some places that visitors are not safe. Few travelers are able to protect themselves from the mosquitoes of the regions through which they pass and it is those mosquitoes which carry the infection of malaria. This is more especially the case if the travelers camp in the lowlands where water is abundant and mosquitoes are breeding in pools and neglected irrigation ditches.

It is supposed that communities, which are set in the midst of swamps or low-lying places where water abounds or marshes prevail have enough forethought to seek remedies for these conditions. This can easily be done by taking advantage of the provisions of legislative enactment. However, many communities are content to continue in the old way and as many of the natives are immune they do not trouble themselves about others.

From the annals of the Bureau comes the story of a man who passed through Kern county where he camped. He was bitten by mosquitoes. He went on to Fresno, and next day came to Oakland where he developed a bad case of malarial fever. The infection was so bad that microscopic examination of his blood revealed an extraordinary development of the parasites of tertian malaria. This man had never had malaria before and his only exposure to infection was during his trip through the San Joaquin valley.

The department urges a vigorous campaign against the malarial mosquito. Assembly Bill, No. 1565 provides for such campaign. The area infected is first determined; then a petition is circulated and names of at least ten per cent of the voters in the district must be secured. Further details can be obtained by sending to the secretary of the State Board of Health for a copy of the law.

There is no doubt that the warning is needed and that measures should be taken against the mosquito this fall. The automobile trip is becoming more popular every year as a glance at the news columns of the Glendale Evening News will reveal. Every precaution should be taken to make such trips safe.

SERVIA'S GALLANT STAND

Whatever may be said of the evils of war no one has yet had the temerity to suggest that any country should tamely submit to invasion by a foreign foe and to the suppression of its rights by a foreigner. The right of men and of small States to govern themselves is a principle that lies at the root of all that is great in the world. It was to defend that right that the colonists of the United States defied the power of Britain and fought till they gained what they had sought in vain by modest representation. Does anyone have the audacity to say that the United States was wrong in 1776?

Thus it is the case that whatever may be the outcome of the war two nations will survive in song and story even though they should perish to the last man, woman and child—Belgium and Servia.

It may be a very fine thing for those who think so to be part and parcel of a big nation that with elaborate preparation of many years marches to the devastation of the world; but it is a far greater thing to belong to one of these small nations that have rendered themselves immortal by their resistance to the invader with his overwhelming brute force and like the brave of all ages have cried aloud with joy:

"How can a man die better, than facing fearful odds,
For the ashes of his fathers and the temples of his gods?"

Mighty Persia's wealth and grandeur are forgotten; but the deathless fame of the 300 Spartans who under the gallant Leonidas held the pass of Thermopylae will endure as long as the world lasts. Thaddeus of Warsaw, Wallace and Bruce of Scotland, George Washington at Valley Forge—the world can never forget them and the world is better of remembering them. They gave their lives and counted them not lost in comparison with what they gained. As Pitt said in the British Parliament, at the time of the American war of Independence, "If I were an American as I am an Englishman, while the foot of a foreign foe resounded in my country, I would lay down my arms—never, never, never! So the Belgian king and the Belgian people say and fight bravely on.

So, too, little Servia, battered on every side, has held on to her lines of defense and from trenches manned by her fearless women as well as her dauntless men has flung back, again and again the ferocious Austro-German legions and the ingrate Bulgarians, who vastly outnumber them; and if they have to give ground before their swarming foes, do so only inch by inch.

When the history of the war comes to be written, in an age after the mists of blood and smoke have cleared away, the roll of fame will be inscribed with at least two names—Belgium and Servia, and lo they will lead all the rest.

TOO MUCH LEGISLATION

There is a tendency for our law makers to give a state an overdose of legislation. Counties and cities are also given too much legislation. It is so easy to pass laws and so difficult to enforce them.

THE WORTH OF A BOYS' TIME

A very reasonable question to ask is, "What is the worth of a boy's time from the time he is 14 years of age until he is 20?" The editor of the Evening News will be pleased to have this question answered by persons who are willing to give the subject the necessary consideration.

VALUE OF CLEANLINESS

Cleanliness is always a mark of progress whether it be cleanliness of a nation, state, city or an individual. To be clean is a qualification of value. When a stranger enters a city he is attracted by the appearance of the buildings, the lawns, the streets and the people who inhabit the city. Well kept buildings, lawns and streets count for much in the way of adding value to a city. The inhabitants of a city who keep everything in good repair are neat and tidy in their personal appearance.

WASTE LANDS

Look about and behold the many acres of waste lands on every hand. In a certain tract land is producing abundant crops and in an adjoining tract in which the fertility of the soil is equal to that of the other tract, there is being produced a crop of weeds.

In instance number one the land is controlled by a man who is forced to earn a living by the sweat of his brow, and in instance number two the land is owned and controlled by a speculator who perhaps has never seen it. There is a crying need for actual producers.

P. E. O.'S MEET AT EXPOSITION

SAN FRANCISCO, Oct. 26.—The National "P. E. O." the only secret and benevolent order of the women in the world, not an auxiliary of some organization of men, met at the exposition today. The order started as a college sorority, now has a membership of more than 25,000 in the United States alone. Its objects are philanthropic and social, including loans to girls who desire a college education but have no security.

A man's good sense is determined by his every day actions and not by the words he utters.

VIOLET UDELL SAYS POVERTY FORCED HER TO THE ROAD

(Special to the Glendale Evening News)

EVERETT, Wash., Oct. 26.—Violet Udell, aged 17, the girl bandit who terrified the whole vicinity of this place and even close in to Ballard, one of the suburbs of Seattle, today confessed that she had single-handed carried out eight holdups. She declared that poverty forced her to adopt the life of a bandit.

FOR THE PREVENTION OF DISEASE

1.—Do not have a gas stove without a flue. It endangers health.

2.—Pure food, pure water, sunshine and pure air—these aid health.

3.—A clean, well cared for mouth prevents disease and pain.

4.—Do not forget that measles, whooping cough, etc., are dangerous.

SAPPHIRE DISCOVERY

A sapphire of good quality, which was cut into a gem weighing 1 3-8 carats, was discovered in the gravel along the shore of Lake Okoboji, Dickinson County, Iowa, in 1914. It is described as resembling a piece of blue bottle glass worn round and smooth by attrition and is stated to be the cornflower-blue variety and to have a good, velvety luster. This gem was probably transported to the Lake Okoboji region by ice during the glacial period along with a large variety of other minerals and rocks, and its original home can only be surmised. (Gems and Precious Stones in 1914, United States Geological Survey).

ONLY EXCLUSIVELY WOMEN'S LODGE MEETS AT SAN FRANCISCO

(Special to the Glendale Evening News)

SAN FRANCISCO, Oct. 26.—The National P. E. O.'s, the only secret and benevolent order of women in the world, met at the Exposition today. The P. E. O.'s are not an auxiliary of some organization of men. They beban as a college sorority and now have a membership of more than 25,000 in the United States alone. Their objects are philanthropic and social. They give loans without security to girls who desire a college education.

GYPSUM PLASTER

Of the many products derived from gypsum, "staff" is of particular interest as a material commonly used in the construction of large temporary buildings, notably those at the Panama-Pacific Exposition at San Francisco and the Panama-California Exposition at San Diego, Cal. The material used for the buildings in San Francisco, however, differs from that used in the buildings of previous expositions in being cast to imitate the famous Roman travertine. The State of Utah is proud of the fact that all the gypsum for the buildings in San Diego and at least 80 per cent of that used at San Francisco, according to estimates of the exposition officials, is reported to have been quarried near Nephi, Utah.

CLEVELAND, OHIO, DISTRIBUTES HEALTH RULES TO PUBLIC

(Special to The Glendale Evening News)

CLEVELAND, Ohio, Oct. 26.—"Health Day" was celebrated here today. This is the first time in the history of any community that such a celebration has taken place. The affair was so well carried out that the state is likely to adopt the idea. The object of the celebration was to bring the importance of disease prevention to the attention of the people. The celebration will be followed by a publicity campaign. Thousands of health ru'es have been distributed in pamphlet form. Moving pictures, newspapers and other publicity agencies are co-operating in the work.

Mr. and Mrs. J. F. Keogh, 1020 Chestnut street, have as their guest Mrs. Keogh's sister, Mrs. G. F. Finer of Waukegan, Ill. Mrs. Finer is making a three months' tour of the Pacific coast. She will visit the two expositions and the most prominent cities in California.

WAR ODDITIES

EDINBURGH—Seventeen persons living on the same 'stair" of a Bryson road tenement house have joined the colors.

CUMBERLAND — Blast furnace workers have increased 69 per cent since the beginning of the war. They play an important part in the manufacture of munitions.

CERTIFICATE

Business Under Fictitious Name

We, the undersigned, hereby certify that we are conducting business at No. 824 W. Broadway, Glendale, County of Los Angeles, State of California, under the firm name of Smith, Walker & Middleworth, and that said firm is composed of the following named persons:

Jesse E. Smith, whose address is 610 W. Broadway, Glendale, California.

Howard W. Walker, whose address is 217 N. Kenwood St., Glendale, California.

Wilber R. Middleworth, whose address is 120 W. Fifth St., Glendale, California.

Witness our hands this 26th day of October, 1915, at Glendale, Cal.

JESSE E. SMITH,
HOWARD W. WALKER,
WILBER R. MIDDLEWORTH.

STATE OF CALIFORNIA, } ss.
County of Los Angeles. }

On this 26th day of October in the year 1915, before me, Stella Smith, a Notary Public in and for said county and state, residing therein, duly commissioned and sworn, personally appeared Jesse E. Smith, Howard W. Walker and Wilber R. Middleworth, known to me to be the persons whose names are subscribed to the within instrument and acknowledged to me that they executed the same.

Witness my hand and official seal.

(Seal) STELLA SMITH,
Notary Public in and for said County and State..

My commission expires May 7, 1918. 56t4Tues

BRAHM VAN DEN BERG
PIANO INSTRUCTOR

Beginners and Advanced Pupils accepted. Residence Studio, 1218 Chestnut Street. Sunset phone Glendale 919. Glendale, Cal.

NOTICE OF PUBLIC WORK

Public notice is hereby given, that the Board of Trustees of the City of Glendale, on the 11th day of October, 1915, did, at its meeting on said day, adopt a Resolution of Intention, Number 870, to order the following improvement to be made, to-wit:

Section 1. That the public interest and convenience require, and it is the intention of the Board of Trustees of the City of Glendale to close up, vacate and abandon for street and alley purposes all that portion of Stanley avenue lying east of the southerly prolongation of the east line of the Hannover Tract, as per map recorded in Book 12, Page 159 of Maps, Records of Los Angeles County, California, said portion of Stanley avenue to be vacated being twenty-five (25) feet wide by two hundred and ninety (290) feet, more or less, long.

The district to be assessed to pay the damages, costs and expenses of said improvement is described in and reference is hereby made to said Resolution of Intention Number 870 for further particulars of said work.

T. W. WATSON,
City Manager and Ex-Officio Street Superintendent of the City of Glendale. 56-65

PERSONALS

Mr. and Mrs. W. D. McRae, 1436 Salem street, entertained as a guest Sunday Mrs. Jane Shontz of Santa Barbara.

Mr. and Mrs. H. H. Spalding, formerly residents on a ranch near Burbank, have rented the Vandeburgh home, 1470 Salem street, and are now residing there.

Mr. and Mrs. S. K. Frazee, 1435 W. Broadway, accompanied by their daughter Margaret and their son Robert, motored to Long Beach Sunday to visit their friends in that city.

Mr. and Mrs. Blake Franklin, Mr. and Mrs. A. R. Campbell and Mr. and Mrs. C. M. Van Dyke, who have been spending a few days as a house party at Hermosa beach, returned Tuesday to Glendale.

Miss Margaret Lichtblau, a former resident of Glendale, now residing in Los Angeles, was a visitor in Glendale Sunday, spending the day with Mr. and Mrs. W. D. McRae, 1436 Salem street.

Mr. and Mrs. Charles Branaman of Milford street returned Monday from San Francisco, where they have spent a very pleasant three weeks visiting the Exposition and their friends.

Dr. and Mrs. Lauler, 1427 Burchett street, have had as their guest for some days Dr. Lauler's sister, Mrs. Ofenberg of Elsinore. Mrs. Ofenberg will leave Saturday on the "President" for San Francisco, where she will make a ten days' stay.

Mrs. W. C. Alvord, 1414 Broadway, entertained at her home Monday the ladies of the committee for the 5 and 10-cent counter for the Congregational Church bazaar, to be held in December. The ladies had a pleasant time and a great deal of work was accomplished.

W. A. Rauls, judge of the Probate Court of Jasper County, South Carolina, has lived successively in three counties without ever having moved out of his house. At first the house was in Beaufort County; then Hampton County was formed, and the judge's house was included; and finally Jasper County was created and the house was in this area.

Mrs. Torrey, 1318 W. Second St., accompanied by her son, are visiting her parents, Mr. and Mrs. Farnsworth, at their ranch in Tulare county. Miss Emma Torrey, Mrs. Torrey's daughter, has been residing at the Tulare ranch all summer. She will return to Glendale with her mother. Mr. and Mrs. Farnsworth formerly resided in Glendale, at 235 Central avenue.

The popularity of the talks given during the past four years by Mrs. Nanno Woods has reached as far as Denver. The Playground Association of Denver, one of the largest child welfare associations in the States, has written Mrs. Woods, asking that if she cannot go to Denver to deliver her talks to mothers and fathers, to kindly send copies of her addresses to the Playground Association, to the end that they may be printed and circulated amongst the federated societies of Denver.

NORTH GLENDALE

Mr. Burt Wilson of Los Angeles was the guest of his brother and family, Mr. J. M. Wilson, of 1636 Ruth street.

Mr. and Mrs. W. H. Brown of 913 San Rafael street were the guests of friends residing in the western part of Los Angeles for the day, Sunday.

Mrs. Myrtle Utzman of San Fernando spent the week-end in North Glendale with friends.

Last Saturday evening the Misses Hazel and Edna Colton of 411 South Central avenue entertained with a hallowe'en stunt party at their attractive home. The decorations were in harmony with the occasion, black cats, spooks and grotesque pumpkin faces were in evidence everywhere throughout the various rooms. The young people came dressed as charming lads and lassies, each couple delightfully paired off for the evening's fun. Dancing, music, and games were the features of entertainment and at a late hour delicious refreshments were served by the gracious hostesses. Those who enjoyed the never-to-be-forgotten occasion included, the Misses Dorothy Leach, Inez McKinney, Irene Maier, Edna Love, Ada Kenyon, Eleanor Collins, Cecelia Peterson, Georgia Best, Violet Misenheimer, Anna Rohner, Eilleen Sprague, Margaret McOmber and Mrs. M. Meade, who assisted the young people in their entertainment, also was the chaperone of the party.

Mrs. Frank Winslow and children Dorothy and Frank, Jr., former residents of Ruth street, now of Los Angeles, visited former neighbors and friends in North Glendale Monday.

Miss Lucille Pittman of 1001 North Pacific avenue, with Miss Harriett Bayard of the Frentz Apartments, enjoyed a motor trip to Los Angeles and the several beach towns with a party of Los Angeles friends last Saturday, reporting a most delightful time.

GLENDALE GARDEN SOCIETY

The president of the Glendale Garden Society, Mrs. Nanno Woods, is preparing something interesting for the regular meeting to be held Thursday evening, November 4. Tuesday night at 8 o'clock representatives of the Chamber of Commerce, of the Parent-Teacher federation, and of the Tuesday Afternoon Club are to meet with the officers of the Garden Society, at the Chamber of Commerce rooms, to hold a conference over the program. Details will be announced later.

YOUNG MEN ENTERTAINED

The young ladies of Mrs. Pixley's class of the West Glendale M. E. Sunday School entertained the young men of Rev. Hartsell's class with a delightful party, at the home of Miss Mary Kendall, 1451 Riverdale Drive, on Friday evening.

Hallowe'en decorations of yellow and black were used; owls, black cats, witches, paper streamers and lights covered with pumpkin faces, giving the rooms a decidedly "spooky" effect. Games and music filled the time till all were hungry, when a substantial and delicious supper was served by two of the hostesses, thus closing one of the pleasantest of the many gatherings held by the two popular classes.

Among those present were the Misses Kendall, Singleton, Gould, Hobbs, Bott, Burlingame, Spafford, Whitehead and Hollingsworth, also Mrs. Pixley, Mrs. Kendall and Miss Pixley; Messrs. Hartsell, Lyons, Hoopes, Pixley, Thomas, Merriken, Bott, Davis, Mott, Kendall, Killgore, Sherman and Terry.

EPWORTH LEAGUE SOCIAL

With the near approach of Hallowe'en the spirit of that ghost'y season pervades everything. Even church parties are not exempt from the peculiar influence of the night when fairies dance and witches and warlocks are abroad. That the spirit of Hallowe'en penetrated the sacred circle of the Epworth League was manifest Monday night when the members of that society responded to the invitation of their officials and assembled to enjoy a social party in the spacious hall of the church.

On entering the hall the guests were transported at once into the region of mysticism. Before them the scene was shrouded in mystery. The streets of G endale were no more. In their place had quietly appeared an ancient barn with its store of hay; corn stalks all round and pumpkin lanterns giving a ghostly light. The guardian of the etrance to this weird scene was a very presentable specimen of a ghost. A little farther on stood a witch with a caldron in which strange tnings boiled and bubbled and from which predictions of fortunes were extracted for the guests.

Many of the guests were in costume suitable for a Hallowe'en party. The evening was spent in a most pleasing manner with ghost stories, music and games. Refreshments of a character suitable to the season were served.

CHARLEY CHAPLIN STEP

Prof. T. B. Hollister will teach the Charley Chaplin Step next Friday evening at 8 o'clock in Butler's Ha'l. The steps are very easy and anyone can quickly learn them. Price 50c for a two hour lesson. Children's class Saturday afternoon at 1 o'clock. 56t4

COLUMBUS AVENUE P. T. A.

The Columbus Avenue Parent-Teacher association will hold its regular meeting at the school Thursday afternoon at 2:45. Miss Johnson will give a fifteen minute demonstration of kindergarten work and Mrs. P. S. McNutt wi'l conduct a Parliamentary drill for fifteen minutes. Prof. R. D. White will talk on "Are Our Schools Practical?" There will be refreshments.

LOT CLEANING INFORMATION

The lot cleaning department under the direction of T. W. Watson, city manager of Glendale, has made the following report:

Total number of lots on which notices to destroy weeds were posted as provided by law—2369.

Total number of lots upon which weeds were caused to be destroyed by the owners—1009.

Total number of lots upon which the owners failed to destroy weeds and upon which the weeds were destroyed by the City of Glendale—1360.

The average cost of destroying weeds upon an average size city lot—a little over $1.23 per lot.

The total cost of work done by the city—$1676.35.

Nelson H. Balcom, a Cleveland, Ohio, court stenographer, has made a long-distance record on the typewriter by working twenty-eight hours without a rest. In that time he made out a duplicate jury list of 5,000 names and addresses.

Mrs. A. A. Morse of Lewiston, Maine, brought from Durham a specimen of a tree resembling hemlock which bears red berries the size of huckleberries. Botanists of the neighborhood are at a loss as to the name of the tree.

ATTORNEY WINS OWN CASE

Attorney-at-law P. S. McNutt, of Glendale and Los Angeles, brought suit against Harry L. Lowe, Stanley C. Woodyard and Charles W. Berry of Los Angeles to recover the sum of $50 owing him for services as their legal counsel and for giving them advice regarding an extensive and valuable mineral property near the city of San Fernando. It appeared that Mr. McNutt had drawn up the articles of incorporation, but that they changed their minds and entered into other arrangements with other parties. After evidence and deliberation Judge Whomes issued a decree for the sum sued for and costs.

BROADWAY P. T. A.

The Broadway Association started out most auspiciously with one of the largest gatherings they have ever had.

The picture committee reported the purchase of a picture to be presented to the room having the highest percentage of mothers in attendance. It is a colored reproduction of Lerolle's "By the Riverside." Miss Pauline Scholz's room received the picture for the current month.

Little Shirley Chase gave a reading from James Whitcomb Riley.

Mrs. R. W. Masters pleased the meeting with one of her well chosen piano selections.

The most interesting and entertaining number ever given at a P. T. A. meeting was the splendid "Glimpse of Alaska" given by Mrs. Ryan, who held her audience spellbound while she, in her charming way, related, with description and illustration by post cards, her lovely experiences in the Northland. So beautifully were the scenes and thrills depicted that those present felt they not only had had a glimpse of but a real trip to Alaska.

The hospitality committee having charge, Mrs. Anderson and Mrs. Jepson, served dainty refreshments.

HALLOWE'EN PARTY

One of the delightful little parties occasionally given by the Fan Theta class of the Presbyterian Sunday School was succesfully carried out Saturday at the bungalow in rear of the church building. The affair took place from 2 to 5 p. m. The hall was nicely decorated with all the paraphernalia of the Hallowe'en season. The usual accompaniments of the season were in evidence and pumpkin lanterns, pumpkin pies, fruit salad, wafers and cocoa lent a seasonal touch to the entertainment. Games and piano music made the afternoon pleasant. The Misses Elizabeth Edmonds and Margaret West played some excellent music.

Miss Porter, a former teacher of the class, contributed to the pleasure of the occasion by a present of bonbons. The honored guests were those having birthdays in October—Mrs. Ogg, teacher of the class, Alice Hetrick and Aileen McMaster. The other members of the class present were Elizabeth Edmonds, Inez Harrison, Miriam Jones, Evelyn Albright, Margaret West. The guests were Eleanor Barrows, Agnes Tupper, Olive Taylor, Martha Eilers, Carrietta Conners and Virginia Bolen.

CHAMBER OF COMMERCE BANQUET

The Glendale Chamber of Commerce is planning a banquet, to be held Thursday evening, November 4, to which all the members and their ladies are expected to attend. The banquet is to be served at the Glendale Sanitarium, a guarantee of a most appetizing and excellent menu. A suitable program is being arranged by the committee in charge and some good things are in store for those who attend.

STUDENTS TO BUILD IMAGINARY RAILWAY

Residents of Highland Park, a suburb of Los Angeles, who see indications that a new railway is to be constructed in their part of the city, on which in fact surveyors are already at work, need not begin at once to increase the price of their property. It is true that surveys are now in progress for a railway, but the road in question is an imaginary one. The work is being done by students in civil engineering at the University of Southern California. Under the direction of Associate Professor C. W. Cook, complete surveys will be made from which the contractors could begin work, if necessary. Not only is the best possible route determined, after the construction of an exact relief map, but the economics of the question are considered, and the students report upon the probable earnings of such a road when constructed.

LECTURE ON HOLLAND

Interest is growing in the lectures that are being given in the High School by Prof. Raymond, under the auspices of the Parent-Teacher Federation. A large and appreciative audience greeted the lecturer Saturday evening, when he delivered the second lecture in the course. His subject was "Holland." The lecture bristled with wit and expressed profound admiration for the steady, sober Dutch. The last lecture will probably be the best of all . It will be on "Switzerland," which is the most interesting country in Europe.

TO MOVE TO CITY HALL

Preparations are being made to move the Recorder's court and the police department to the City Hall. Alterations have been going on for some time in the city hall itself to make room for these further additions to its present occupants. Judge Whomes has been busy for some time past getting his documents in order and his desk and furniture revarnished, so as to be presentable and dignified in his new quarters. Chief of Police Herald has been having a regular housecleaning during the past few days. The arranging and sorting out of old letters and correspondence regarding police matters has occupied a considerable portion of the past few days. Everything is now in shape for the migration. The removal of the police department and of the judge's court will take some of the liveliness from the fire house; but the city authorities think it will be an advantage to have all civic departments in the same building.

TO TALK ON WAR

Prof. Cleland, who fills the chair of modern history in Occidental college, and who has made a very thorough study of the present fighting in Europe, will lecture on the "Crisis in Eurpoe" at the Presbyterian Church tonight, at the regular meeting of the Presbyterian Brotherhood. The members of the brotherhood have invited the women of the church to be present.

A GOOD PIECE OF WORK

Fire Chief Lankford has done a good piece of work in renovating the wonderful Ford that belongs to the City of Glendale and is used by the police and fire departments. This auto has as many lives as a cat. The tale of its adventures would rival those of the "Thousand-and-One-Nights." It has survived many accidents and each time has been patched up so well by Lankford that it is as good as new, though but little of the original Ford remains. The fire chief's latest achievement with this immortal Ford has been to revarnish it and brighten up the brass work. The old Ford is now a new auto. Inside as well as outside this renovation has gone on until the maker himself would not recognize it for the original Ford sold to the City of Glendale.

WOMEN'S CONGRESS ON COAST

Women of national and international prominence will attend the Congress of Women at San Francisco November 1. Miss Margaret Wilson, daughter of the President, is expected to attend. Princess Patricia, daughter of the Duke of Connaught, governor general of Canada, may also be there.

The congress will be presided over by Lady Aberdeen, president of the International Council of Women, and author of many books. Lady Aberdeen is one of the foremost leaders of the feminist movement in the world. Many brilliant social affairs are planned for the distinguished visitors.

EASTERN STAR PARTY

All members of the Eastern Star of the valley are cordially invited to attend a Hallowe'en party to be given by Glen Eyrie Chapter, Oct. 28, in the Masonic Tempel. Little silk bags will be presented to each one present. In to these bags they will be expected to put a penny for each birthday they have known. This will admit the holder to the evening's entertainment. All ladies are requested to brings sheets and pillowcases. An evening of fun and frolic is promised.

LECTURE ON THE WAR

The men of the Presbyterian Church and congregation will have a very unusual opportunity at the Brotherhood meeting, Tuesday evening at 7:30, to hear Professor Cleland, of Occidental College, on the "War Crisis in Europe." Professor Cleland is a specialist in modern history and has made a study of present European conditions. You will make a mistake if you do not hear him.

JUDICIAL WIT

Scene—Judge Whomes' Court; time, 10 a. m.

Dramatis personae — Judge Whomes and John Doe.

John Doe—"Judge; I want a warrant for a man who owes me for a pair of pants."

Judge—"What is that?"

John Doe—"I want to bring a suit against that man who owes me for a pair of pants."

Judge—"Forget it. You can't make a suit out of a pair of pants."

(Exit John Doe, still puzzling as to whether this was legal wit or legal judgment).

Good goods sold at reasonable prices is good business. It is ruinous to sell damaged goods and it is ruinous to business to sell goods for higher or lower prices than they should be sold. Square dealings win and hold customers.

A man does not change much from year to year in his manner of dealing with the public. If he deals square today the chances are he will deal square a year from today, and if he deals crooked today he will deal crooked a year from today.

The new Royal

Price $100

$125 in Canada

The Herald of Better Service

IN the arena of "Big Business" has appeared a new steel-brained champion, the Master-Model of the Royal—the machine with the rapid-fire action; the typewriter that fires letters as an automatic gun spits bullets!

Unless you are "Royalized," you are paying the price of the Royal without knowing it—*besides that of your old-style machine*—in the higher cost of your business letters.

Built for "Big Business" and its Great Army of Expert Operators

This master-machine does the work of several typewriters in *one*—it writes, types cards and bills! The one machine does it *all*—without any "special" attachments.

Get the Facts!

Send for the "Royal man" and ask for a DEMONSTRATION. *Investigate* the new machine that takes the "grind" out of typewriting. Or write us direct for our new brochure, ***"BETTER SERVICE,"*** and book of facts on Touch Typing—with a handsome Color-Photograph of the new ***Royal Master-Model 10,*** sent free to typewriter users. "Write now—right ***now!***"

ROYAL TYPEWRITER COMPANY, Inc.

327 West 2nd St., Los Angeles, Cal.

MUNICIPAL DOINGS

(Continued from Page 1)

A communication was read from the Boyle-Dayton Company in regard to portable gasoline buggy for storage tank, asking permisison to use the same in the City of Glendale.

The City Manager presented a copy of the Los Angeles Ordinance upon this same subject, setting forth the requirements of that city in reference to this apparatus. On motion of Trustee Williams, it was adopted to the effect that the clerk be instructed to notify the applicants that the Board is not willing to grant a general permit of this kind, but that applications for special permits, from local concerns, would be considered.

A communication was read from the City Engineer recommending that the map of "Atacanyada" submitted with the communication (a tract outside of the City of Glendale) be approved. On motion of Trustee Tower it was so ordered.

Applications to sell milk were received and read from the following persons, and upon motion of Trustee Tower, the same were granted:

Philip McAnany, San Fernando Blvd.

Edward Shively, 319 Orange St.

Julia Mae Shattuck, 821 Central avenue.

A. W. Randolph, 965 Glendale Ave.

The following demands were referred to the Finance Committee:

The Board then proceeded to canvass the returns of the annexation election of October 16th in Verdugo Precinct, adjoining the City of Glendale. As a result of the canvass, the following resolution was, on motion of Trustee Grist, seconded by Trustee Thompson, adopted as read.

On motion, Ordinance 276, "An ordinance of the City of Glendale requiring license certificates for the regulation and operating of motor busses," was ordered to be taken up for the third and final reading, and on motion of Trustee Tower, it was adopted by the following vote: Ayes—Tower, Thompson, Williams; Noes—Grist, Lane.

The City Manager brought before the Board the matter of the provision in the present traffic ordinance, by which the minimum fine for offenders is fixed at Ten Dollars, and one or two other particulars. In his opinion the ordinance should be changed. He presented a draft of an ordinance to make the changes proposed, which was ordered to be read, and upon being read was, on motion of Trustee Thompson, declared read for the first time and ordered to be taken up for second reading, and being read a second time the ordinance was ordered to be laid over for the third and final reading at the next regular meeting.

The City Attorney presented to the Board the matter of non-collection of merchant's licenses for the month of July and August under Ordinance No. 263, and presented the following resolution, which was, upon motion of Trustee Tower, ordered to be adopted as read.

Trustee Tower made a motion, which was adopted, to the effect that the fee charged to Mr. George T. Paine for permit to demolish building, corner of Maryland avenue and Broadway, be refunded.

The following demands previously referred to the Finance Committee, reported back approved and warrants were ordered to be drawn in payment of the same.

Adjourned.

The City Engineer presented "An Ordinance declaring the intention of the Board of Trustees of the City of Glendale to order the laying out and opening of Penn street in said city," which upon motion of Trustee Thompson was ordered to be read, and being read the Ordinance, on motion of Trustee Tower was declared read for the first time and ordered to be taken up for second reading. Upon motion, the Ordinance was declared read for the second time and laid over for the third and final reading, at the next regular meeting.

Bills previously referred to the finance committee for auditing were allowed as follows:

Austin-Western Machinery Co., cylinder for street roller	$ 32.20
Burbank Review, publishi'g	63.20

Sarah G. Wright, Elect'n J'dge	3.50
H. Thams, labor	8.00

ANNIVERSARY OF TRAFALGAR

Indomitable Nelson lies fast in eternal sleep, and all but the fraction of a century has rolled away since when was fought the Battle of Trafalgar. But the thundering guns, the screaming shells, the lamentations of the sorrowing, cannot shut out from British ears the eloquent silence from that day of ninety-nine years ago; and in the British hearts the feeling is serene and sure that this day's sun will fall upon some victory, some master-stroke, that will make a mad rejoicing 'midst the watching shades of Trafalgar's lost legions.

5000 MILE AUTO TRIP

It is a long trail from Plainview, Texas, to Los Angeles, California, but it has just been followed by Frank E. Pearson, who has big landed interests in eastern Texas.

Mr. Pearson and his family are making a camping trip of five thousand miles in their Dodge Bros. motor car to the Pacific Coast.

From their home town they motored over the great plains of Texas to Clovis, New Mexico, there turning north to the oldest town in the United States, Santa Fe, New Mexico. At that point they picked up the National Old Trails Route, which was followed through Albuquerque to Socorro and into Arizona at Springerville. It was from Springerville to Holbrook that then encountered the worst portion of the road between their home town in Texas and Los Angeles. Every bridge in that section of the country had been washed out and the people of Springerville tried to discourage them from proceeding westerly over the National Old Trails.

They had determined, however, to visit the Grand Canyon and, judging from the mountain grades which they had overcome in crossing the Transcontinental Divide, they felt confident that their Dodge car would pull through anything a machine could negotiate. After the big storm near Springerville, horse drawn vehicles were the only kind making the trip between Springerville and Holbrook. At Springerville a half dozen transcontinental cars were tied up, but in spite of all advice Pearson decided to go ahead with the trip and pulled away from Springerville with the utmost confidence that he could get through with his Dodge car. In spite of the deep mud of the adobe country north of Springerville, and the high waters in the several streams and washes which had to be crosed, Pearson made the drive between Springerville and Holbrook, sixty-five miles, in one day's time.

When he reached Holbrook the motorists of that section congratulated him on his trip and said they didn't suppose a machine could get over that road for another ten days. Mr. Pearson felt pretty proud that his Dodge car was the only one that could negotiate the road.

In talking with Harold L. Arnold, distributor for Dodge Bros. motor washes which had to be crossed Pearson said that he attributed the unusual road work of the Dodge car in Arizona to the quality of materials and perfect unison of working parts in the car. Otherwise it could not have pulled through the fierce roads on the trip from Texas.

GOOD INSECTICIDE

Excellent results against certain insects have been obtained with calcium arsenate, a new insecticide the Department of Agriculture has been employing in extensive laboratory and field tests. The new insecticide is regarded as a promising means of controlling chewing insects on fruit trees. Here is the formula:

Stone lime (90 per cent Cao)—55 pounds.

Sodium arsenate, fused (dry powdered) 65 per cent as 205—100 pounds.

Water—26 gallons.

Place the stone lime in a wooden container and add a small amount of water, just enough to start slaking. When slaking is well under way pour in the sodium arsenate, which should first have been dissolved in hot water. Keep stirring until the lime has thoroughly slaked. Sufficient water should be added from time to time to prevent burning.

The Glendale Mill

Makes it a policy to give every patron just a little better work than he can get elsewhere

This big Glendale Industry is also fully equipped to make practically anything that is made from wood, from the interior trim of a residence or a public building to a built-in fixture.
